Letter No 5538/E dated 23-2-1946 from the Chief Engineer for Irrigation.

Regarding re-classification of vacancies

The marginally noted three grades are in existence for clerks in the Administrative Unit of the P.W. Dept. ie the offices of the Chief Engineer and the Superintending Engineers. Recently orders issued in the GO dated 18-9-1945 regarding the re-classification of appointments in the Subordinate, Superior services of Govt, all appointments carrying a graded pay of Rs 70-5-95 will have to be classed as Class I to be filled up by direct recruitment of Graduates, the other two grades being classed as Class II appointments

2. The Chief Engineer brings to notice that the grade of Rs 70-5-95 is intended only for senior clerks who have to supervise and personnise the work of clerks in the lower grades. Direct recruitment of graduates to these posts will considerably improve the efficiency of office work and will also clear the prospects of graduates and senior clerks in the grade of 30-4-70. awaiting promotion. He, therefore, recommends that all posts carrying the graded pay of Rs 30-4-70 may be converted into Rs 50-4-70. This involves an extra cost of Rs 258 1/3 per month as per details shown in the proforma Statement

but there will not be any appreciable increase in cost immediately, as most of the clerks on 30-4-70 are already drawing Rs 50/- and more.

3. According to the revised instructions issued in the GO dated 11-2-1946, 75% of the vacancies occurring in Grade Rs 70-5-95 can be filled up by the promotion of graduates now on Rs 30-4-70 and only 25% of the vacancies in the higher grade will have to be filled up by direct recruitment.

4. The Education Secretary may be perhaps be consulted on the proposal of the Chief Engineer in para 2 supra.

14/9/46. 5. This will be a departure from the general rules of recruitment and the Public Service Commission may be consulted in the matter.

Returned with compliments:

9(a) From the recruitment point of view, there is n objection to the conversion of the grade Rs.30-4-70 to Rs.50-4-70 in the Administrative Unit (Offices of the Chief Engineers and the Superintending Engineers). As a matter of fact, in the Offices of the Executive Engineers, etc., the ✗ grade of Head Clerks is Rs-50-4-7 With a view to maintain uniformity, the grade Rs.30-4-70 may also be revised to Rs.50-4-70.

(b) From a perusal of the statement it is seen that there are 31 and 38 appointments in grades Rs.30-4-70 and 30-3-45 respectively. In view of the limited number of graduates that are available, it is desirable to increase the number of appointments in grade - - Rs.30-3-45 by corresponding reduction in grade Rs.30-4-70 (now proposed to be revised to Rs.50-4-70) to the extent practicable.

RECLASSIFICATION OF VACANCIES.

Sir,

R

Adverting to Government Order No.E.1304-84/R & P.S 20-44-7 dated 18-9-1945, reclassifying the vacancies in Public Service on the basis of minimum and maximum pay of posts, I have the honour to state that the order in its application adversely affects the Public Works Department Central Unit.

2. The Administrative Unit consisting of two Central Offices and three Circle Offices carries a personnel as noted in the accompanying statement. It will be seen therefrom that most of the case-workers are borne in the scale of Rs.30-4-70 to which hitherto Graduates were being recruited. Agreeably to the Government Order cited above, these vacancies go under "Class II" and the six places (4 Permanent and 2 Temporary) in the grade Rs.70-5-95 will become " I Class " vacancies to be filled in by direct recruitment of Graduates. While on the one hand direct recruitment of fresh graduates to these higher posts damps the prospects of graduates and senior clerks in 30-4-70 awaiting promotion, it impairs on the other hand the efficiency of work as raw recruits will occupy these higher places. The senior clerks on Rs.70-5-95 are expected either to supervise and scrutinize the work and drafts of the case-workers in the lower grade or to handle all complicated and important cases. In addition to high qualification, experience in Office routine, intimate knowledge of rules and regulations as well as conversance with noting and drafting are quite necessary for holding the posts of senior clerks in grade Rs.70-5-95.

C.O.,

3. As already stated above, the bulk of initial work is being attended to at present by the clerks in the grade of Rs.30-4-70. As this grade is treated now as Class II, the under-graduates who will be eligible to occupy these places, will be unable to cope up with the work and the efficiency of work will also be seriously affected.

4. I, therefore, propose that with a view to preserve the efficiency of administrative work in the Department, the posts of Rs.30-4-70 may be converted into Rs.50-4-70. By this arrangement, these places will continue to be Class I vacancies eligible for graduate clerks. Indirectly the few places in the higher grade of Rs.70-5-95 will also be available for promotion to the Clerks on Rs.30-4-70 (now) to be converted to Rs.50-4-70 (hereafter).

5. A proposition statement indicating the financial implications of the proposal is also enclosed for kind perusal. But it may be added here that though the conversion points out to an extra cost of Rs.258 1/3 per mensem, there will not be really so much extra cost now, as most of the clerks now in grade Rs.30-4-70 are already either in receipt of the maximum or in excess of the minimum of the proposed grade viz., Rs.50/- Vide separate statement enclosed.

6. In the circumstances explained above, I request early sanctionof Government to the conversion of the grade of Rs.30-4-70 to Rs.50-4-70 in the Administrative Unit of the Public Works Department

7. The Chief Engineer for Roads & Buildings is in entire agreement with the above proposal.

Sir,

RECLASSIFICATION OF VACANCIES.

With reference to your letter No.P.W.291/Est. 101-45-2 dated 15-7-1946, on the above subject, I have the honour to state that the sanctioned scale of Ministerial staff in the several - Administrative Offices of the Department provide for 38 clerks in grade Rs.30-3-45. It has already been explained in my letter No.5538 dated 23-2-1946, that the bulk of the initial work is being attended to at present by the Clerks in grade Rs.30-4-70, now proposed to be converted into Rs.50-4-70. Recruits are being entertained in the grade Rs.30-3-45 which is the minimum pay in the Administrative Unit. The Superintending - Engineers of Circles are already complaining that their Offices are short of experienced clerks, as majority of the clerks in the Circle offices is in grade Rs.30-3-45. It has also to be stated here that as the grade and pay of the Accountants and Accounts Clerks who are working side by side in the Public Works Department are not given to the P.W.D.Clerks and Head Clerks, the efficiency of the Department has seriously suffered for want of efficient staff who would understand rules and regulations and be able to put up proper drafts. Hence, it is not possible to convert any of the existing posts in the grade Rs.30-4-70 into Rs.30-3-45.

2. Even before the issue of Government Order dated 18-9-1945, re-classifying the vacancies, there was dearth for Graduates of the backward community for want of proper and higher grades of pay in the Department, but as opined by the Public Service Commission pending availability of backward community graduates, the direct recruitment Class I 'B' vacancies were filled up provisionally by promoting the deserving senior non-brahmin clerks of Class II appointments. This procedure will be continued till graduates are available.

C.O.,

3. In these circumstances, I request sanction of Government to the proposal to the conversion of all the places on Rs.30-4-70 into Rs.50-4-70 in the Administrative Unit.

4. I request the favour of very early orders in the matter.

I have the honour to be,

Sir,

Your most obedient servant,

[illegible], Bangalore, the 11th February 1944.

In the Government Order of 3rd July 1939 read above, all appointments in the subordinate superior services of Government, were divided into two classes: Graduates being designated for class I appointments carrying a pay of Rs.80/- and above and Non-Graduates for Class II carrying a pay of less than Rs.80/-. This classification which was in force upto 1st September 1940, was revised in the Government Order of 1st September 1940 as a result of which all appointments are now divided into three classes as follows:-

(i) Appointments carrying a minimum of Rs.80/- and above and Graduate appointments, the minimum pay of which is less than Rs.80/- but the maximum is more than Rs.80/- which are treated as Class I appointments the minimum qualification prescribed for this class being a degree of the Mysore University or any other recognised University.

(ii) Appointments carrying a minimum pay of more than Rs.40/- but less than Rs.80/- and all Graduate appointments, the minimum pay

[illegible] entertained subsequent to the Government order dated [illegible] October 1946.

In each Unit office, 25 per cent of the direct recruitment vacancies occurring in class I appointments other than those recently revised after classification into General and Special, should be reserved for appointment of recruits whose names have been assigned to that unit by the Public Service Commission. Every fourth direct recruitment vacancy only will be utilized for the purpose.

The remaining 75 per cent direct recruitment vacancies viz. the first three out of every set of four direct recruitment vacancies at classification into General and Special, should be filled up as indicated hereunder. The graduate officials belonging to Sinhalese communities entertained in old class I appointments and continued at present in the same appointments which have been converted into class II appointments as a result of the issue of Government Order dated 16th October 1946 will be appointed in the order of their seniority in service in the Special Service referred to above. The senior most qualified graduate among all the officials certain in the following communities at the time should be appointed in the respective communities, in unreserved vacancies only.

The general rules regarding disposal of promotional vacancies in the above class I appointments will remain unaffected by these instructions.

GENERAL AND REVENUE SECRETARIAT.

(*Continuation sheet draft form.*)

2. The Chief Engineer has brought to notice that direct recruitment of Graduates to ~~vacancies~~ posts carrying a grade pay of Rs 70-5-95 will not be conducive to efficiency and has therefore recommended that all appointments on Rs 30-4-70 in the Administrative unit may be converted into those on Rs 50-4-70 to enable Graduates being recruited to this lower Grade in the first instance. This will also enable the promotion of deserving lower grade clerks to the higher grade as per rules.

3) After a careful consideration of the question, Govt. agree with the Chief Engineer, and are pleased to sanction his recommendation as a temporary measure with effect from 18.1.1938 vide Standing orders [illegible]
